## ПРОФЕСІЯ «Слюсар з ремонту колісних транспортних засобів»

The distribution of drinking water and the removal of waterborne waste in a building are carried out by means of a **plumbing system** which consists of pipes and fixtures. The main difference between a plumbing system and a **water and sewage system** is that the former supplies one building, whereas the latter serves a group of buildings or a city.

Plumbing installation must follow some regulations to ensure safe, quality construction. Water systems of ancient times used pipes or channels made of clay, lead or stone. Today water supply systems use high pressure pumps and pipes made of **non-toxic materials**, such as copper, brass, steel, cast iron and plastic.

The drinking water supply usually comes from a municipal water supply, water wells, streams, rivers, lakes or rainwater. It is fundamental that clean water is not contaminated by the wastewater side of the processing system. The domestic hot water supply is provided by means of water heater appliances, or through district heating.

## Завдання з читання

**ПРОФЕСІЯ «МОНТАЖНИК  
САНІТАРНО-ТЕХНІЧНИХ  
СИСТЕМ»**

Read the text and  
choose the correct  
option.

1. The plumbing system in the building is needed for the distribution of drinking water and...  
**A** pipes and fixtures. **B** pressure pumps and pipes. **C** the removal of waterborne waste.
2. A plumbing system supplies...  
**A** a group of buildings. **B** one building. **C** a city.
3. A plumbing system consists of...  
**A** waterborne waste. **B** pressure pumps and pipes. **C** pumps and fixtures.
4. A sewage system supplies...  
**A** a group of buildings or a city. **B** one building **C** a plumbing installation
5. Plumbing installation must ... some regulations.  
**A** follow **B** use **C** consist of
6. Today water supply systems use high pressure pumps and pipes made of...  
**A** toxic materials. **B** non-toxic materials. **C** streams.
7. ... usually comes from municipal water supply, water wells, streams, rivers, lakes or rainwater.  
**A** Waterborne waste **B** Non-toxic material **C** The drinking water supply

Read the text again  
and answer the  
following questions.

1. What is carried out by means of a plumbing system?
2. What does a plumbing system consist of?
3. What is the difference between a plumbing system and a water and sewage system?
4. What must plumbing installation follow?
5. What materials were used in water systems of ancient times?
6. What materials are used in water systems today?
7. Where does the drinking water supply usually come from?

Non-potable water • A health hazard • Potable water • Pollution • A water system

- 1 \_\_\_\_\_ is any of the conditions and practices in the water supply system and its operation which can be harmful for the water consumer.
- 2 \_\_\_\_\_ includes water treating and water-using equipment for the supply and distribution of water and waste for a town/city.
- 3 \_\_\_\_\_ is the presence of dangerous substances in the water.
- 4 \_\_\_\_\_ is water which is not safe for human consumption.
- 5 \_\_\_\_\_ is free from impurities and dangerous substances. Its bacteriological and chemical quality complies with the requirements of the waterworks regulations of the state department of health and of the department of public works of the city.

Read the  
definitions and  
match them to

Community Helper: Plumber

plumber is someone who fixes or puts in piping systems, plumbing fixtures and ulpment such as toilets or faucets. Many plumbers are construction workers. e plumber is an important community helper in every community because ople need clean water and safe ways to move and store waste. What are some the tools that a plumber would use? Can you find them below?

Finish!!

3.1 Complete the crossword. Use appropriate forms of words from A, B and C opposite.

Across

5 I phoned to check on my application, but they said they'd already someone. (9)  
6 This job is so important, I think we need to someone. (8)  
8 The selection process has lasted three months, but we're going to someone next week. (7)

Down

1 and 2 I hope she because if she the job, we'll have to start looking again. (7,5,4)  
3 That last applicant was ver; strong, but I understand someone. (8)  
4 he's had two other already. (6)  
4 They've finally a new receptionist. (5)  
7 Computer programmers wanted. Only those with UNIX experience should (5)

3.2 Now divide the words in 3.1 into two groups:

- 1 what a company personnel department does.
- 2 what a person looking for work does.

3.3 Replace the underlined phrases with correct forms of words and expressions from A, B and C opposite.

Fred had already (1) refused two job offers when he went for (2) a discussion to see if he was suitable for the job. They looked at his driving licence and contacted (3) previous employers Fred had mentioned in his application. A few days later, the supermarket (4) asked him if he would like the job and Fred (5) said yes.

Harry didn't hear anything for six weeks, so he phoned the company. They told him that they had received a lot of (6) requests for the job. After looking at the (7) life stories of the (8) people asking for the job and looking at (9) what exams they had passed during their education, the company (10) had chosen six people to interview, done tests on their personality and intelligence and they had then given someone the job.
